The Chronicle Diary

Before you start playing:

Please go through the checklist with your DM/GM and player group prior to starting your chronicle. It can be filled out together during Session 0 or individually by each player. This is not a comprehensive list; additional spaces are provided to fill in additional or more specific topics.

You can find a PDF copy of this Consent Checklist to Download at:

<https://www.cayfletcher.com/the-chronicle-diary/consent-checklist>

Important Reminders:

- The goal of a consent checklist is so all players can be engaged and have fun during the chronicle
- The default answer is No
- Each player has their own boundaries and experiences
- Explanations and reasons are not required and should not be expected
- If you don't want to discuss your answers with the group, speak with your DM/GM privately
- No one should be bullied or influenced into changing their answer
- Consent can change at any time, even during a session
- Any player can leave an uncomfortable situation
- Be mindful of elements in your character's past or backstory that may be triggers for your fellow players
- Check in with your DM/GM and fellow players occasionally, or after a particularly emotional session, to see if anything has changed
